

Ark Buddies

Noah's Memory Game

From Gosling Gifts and Games.

A game for 2-4 players from 3 to 8 years of age.

Contents: 48 cards (24 pairs)

Preparation:

Assemble the Ark. This must be done by an adult or with adult supervision. Once the Ark is made, you do not need to disassemble it, as it will fit fully made up back into the box, ready for the next game.

Shuffle the cards and place them picture-side down on the table arranged in a square.

How to play the game

Each Player picks a section in the Ark 1 2 3 or 4 to keep their animals in.

The youngest player goes first, then continue playing the game in a clock-wise direction.

One player after another turns over two cards so everyone can see them. If they match, the player keeps them and places them into their section of the Ark. The same player continues to turn over two new cards. If they do not match, these cards are then turned face-down again in the same place in the square square. All the players try to remember where the animals are in the square.

The next player continues with the game.

The game is over when the last pair of cards has been turned over.

The winner is the player with the most pairs of cards in their section of the Ark.
